

JUANMA FALCÓN RAMÍREZ

Data Engineering, Analysis and Science

@juanmafalram@gmail.com +34 654 832 394 linkedin.com/in/jm-falcon-ramirez
Las Palmas de Gran Canaria, Canary Islands, Spain

Full-Stack Data Scientist. I work with data end-to-end: engineering, analysis, modeling, etc. Python expert. Versatile, adaptable, and fast at problem solving.

EXPERIENCE

Data Engineer-Analyst

EmoturLab

Oct 2025 – Present Gran Canaria, Spain

Technologies: Snowflake, AWS / dbt, SQL / Python (Pandas, sklearn, networkx, Folium, selenium) / Power BI, Excel

- Member of the *Spain Living Lab* project.
- Database design and ETL process orchestration with dbt on Snowflake.
- Dashboard template design and production using Power BI.
- Training and fine-tuning of LLM models for sentiment analysis.
- Statistical data analysis focused on pattern detection and actionable insights.

Data Engineer-Analyst

University of Las Palmas de Gran Canaria (Dept. of Economic Analysis and Dept. of Quantitative Methods in Economics and Management)

May 2024 – Sept 2025 Gran Canaria, Spain

Technologies: dbt, SQL / Python (Pandas, sklearn, networkx, Folium, selenium) / Power BI, Excel.

- Database design, ETL processes, and modeling. Maintenance of dashboards with updated data.
- Analysis of global maritime connectivity and port emissions using regression and clustering models. Development of graphs and predictive emission models for Spanish ports.
- Analysis of air accessibility and tourism competitiveness through regression models and network analysis.
- Development of a tourism recommendation system based on geolocated images and clustering.
- Development of programs for data acquisition through web scraping.

Data Analyst Internship

Atlantis Technology (Binter)

Mar 2024 – Apr 2024 Tenerife, Spain

Technologies: SQL / Python (Pandas) / MicroStrategy, QlikView.

PUBLICATIONS

- Author of “Accessibility and Competitiveness of Island Destinations” (under review).
- Co-author of P.M. Sánchez-Alarcón et al. (2025), “The Complete Spitzer Survey of Stellar Structure in Galaxies (*CS⁴G*)”.

EDUCATION

PhD Candidate in Quantitative Methods in Economics

University of Las Palmas de Gran Canaria

Oct 2025 – Present

Master’s Degree in Data Intelligence and Cybersecurity

University of La Laguna

Sep 2023 – Jul 2024

- Data analysis, ETL, machine learning, and visualization.
- Cybersecurity, networks, ethical hacking.

Bachelor’s Degree in Physics

University of La Laguna

Sep 2018 – Jun 2023

- Theoretical and experimental physics, pure and applied mathematics, Python programming, data analysis.

TECHNOLOGIES

Python	SQL	Power BI
dbt	Snowflake	PySpark
sklearn	PyTorch	Selenium
networkx	Linux	Git
ChatGPT	jinja2	QlikView
MongoDB	Pandas	AWS
Streamlit	Excel	Azure

SOFT SKILLS

Fast learner	Creative
Teamwork	Scrum
Communication skills	

LANGUAGES

English	●●●●●
Spanish	●●●●●
